

## Novel Coronavirus (COVID-19) Testing Resources

### State Laboratory

#### Kansas Health and Environmental Laboratories

KDHE's Kansas Health and Environmental Laboratories (KHEL) is approved by the Centers for Disease Control and Prevention to perform COVID-19 testing. Click [here](#) for more information. Call (785) 296-1620 or email [covid-19@ks.gov](mailto:covid-19@ks.gov).

### Reference Laboratories & Diagnostic Testing

#### 4M Healthcare

4M offers COVID-19 SARS-CoV-19 PCR testing with results in 24 hours or less. Based in Overland Park, Kansas. Call (913) 222-5600 or email [info@4mhealthlabs.com](mailto:info@4mhealthlabs.com).

#### Abbott Laboratories

Abbott offers two products for addressing COVID-19, m2000 RealTime system and the ID NOW™. The ID NOW™ rapid test delivers lab-quality molecular results in 13 minutes or less. The SARS-CoV-2 EUA test can be used on Abbott's molecular instrument, the m2000 RealTime system. Multiple locations. Click [here](#) for more information or [here](#) go to the ID NOW. Call 1(877) 441-7440 or email [COVIDService@abbott.com](mailto:COVIDService@abbott.com).

#### Cepheid

Cepheid's GeneXpert system can run SARS-CoV-2 tests taking less than a minute to prepare the cartridge with the patient sample and approximately 45 minutes for GeneXpert to determine a result after a test cartridge is loaded onto the system. Multiple locations. Click [here](#) for more information. Call 1(888) 838-3222 or email [ordermanagement@cepheid.com](mailto:ordermanagement@cepheid.com).

#### Clinical Reference Laboratory

CRL offers a self-collected Rapid Response™ saliva-based molecular test that is authorized by the FDA under an Emergency Use Authorization (EUA). In addition, CRL's has partnered with Roche to develop CRL Clear™, a total antibody screen. CRL is based in Lenexa, Kansas. For more information email [covidtesting@crlcorp.com](mailto:covidtesting@crlcorp.com) or call 1(800) 445-6917.

#### LabCorp

Health care providers anywhere in the U.S. can order LabCorp's 2019 Novel COVID-19 testing and serological antibody tests. Multiple locations. Click [here](#) for more information.

Click [here](#) to reach a LabCorp account representative.

#### MAWD Pathology Group

MAWD Molecular Lab is able to maximize their capacity and expertise in pathology and laboratory services to increase the availability of accurate same day COVID-19 test results. Based in Lenexa, Kansas. Click [here](#) for more information.

Call (816) 241-3338 or email [customerservice@mawdpathology.com](mailto:customerservice@mawdpathology.com).

#### MicoGenDX

MicroGenDX's COVID-19 Rapid PCR Test has a 24hr turn around time from time of receipt. Based in Lubbock, Texas. Click [here](#) for more information.

Contact Adam Riggers, the Midwest Territory Manager, at (520) 850-2880 or [dam.riggers@microgenDX.com](mailto:dam.riggers@microgenDX.com).

#### The Great Plains Laboratory (GPL)

GPL is now offering SARS-CoV-2 virus antibody testing service in Kansas with confirmed specificity for COVID-19. Based in Lenexa, Kansas. Click [here](#) for more information.

Call (913) 954-9998 or email [sales@gpl4u.com](mailto:sales@gpl4u.com).

#### Quest Diagnostics

Quest Diagnostics is receiving COVID-19 antibody testing for COVID-19 using blood samples. Not currently collecting active infection COVID-19 testing in their Patient Service Centers. Multiple locations. Click [here](#) for more information.

Call 1(866) 697-8378 or click [here](#) to find a location near you.

#### Viracor Eurofins

Viracor offers COVID-19 SARS-CoV-2 PCR, and IgG and IgM blood-based serology testing for SARS-CoV-2. Based in Lees Summit, Missouri. Click [here](#) for more information.

Call 1(800) 305-5198 or email at [info@viracor-eurofins.com](mailto:info@viracor-eurofins.com).
